

Hello, I'm Justin Malone

I make digital stuff.

A lot of the time, I post it online. Here's my collection!

Er, rather, it *will* be here once I'm done with my site. In the mean time...

I also post stuff to these places.

itch.io

finished **games** from game jams (and sometimes other weird stuff)

twitch.tv

livestreams during game jams (and sometimes just when I feel like it)

Twitter

progress **gifs** and **screenshots** from projects

YouTube

development timelapses, archives of **livestreams**, and other assorted video content
